OBJECTIVE

Aspiring Software Developer with experience in full-stack development using React, Node.js, and MongoDB. Skilled in building RESTful APIs, working with SQL and NoSQL databases, and programming in Python and Java, with a strong focus on clean code and agile collaboration.

TECHNICAL SKILLS

Programming Languages: Java, Python, JavaScript, C
Frontend Technologies: HTML5, CSS3, React.js, Tailwind CSS
Backend Technologies: Node.js, Express.js, RESTful APIs, Socket.IO, Redis
Databases: MongoDB, MySQL, PostgreSQL
DevOps & Tools: Git, GitHub, CI/CD Pipelines, Sentry, API Testing, Debugging

EDUCATION

Brainware University **2024 – 2026**
Masters In Computer Application*(CGPA: 8.6)* Barasat, West Bengal

The University OF Calcutta **2020 – 2024**
Bechelors In Commerce*(CGPA: 8.2)* Kolkata,West Bengal

Barasat Mahatma Gandhi Memorial High School **2018 – 2020**
Higher Secondary Education *(Percentage: 81%)* Kolkata,West Bengal

EXPERIENCE

Full-Stack Developer Intern July 2025 – November 2025
IBM Virtual Internship Remote

- Developed and maintained full-stack web applications using **React, Node.js, Express, and MongoDB**, contributing to approximately **60% of core product features**.
- Implemented secure authentication and real-time features using **Clerk, Multer, and Socket.IO**, improving stability by **35%**.
- Optimized REST APIs and WebSocket communication, reducing average response time by **25%** and improving reliability by **40%** via **Sentry monitoring**.

Certification: IBM Full-Stack Developer Internship Certificate

Web Developer Intern November 2025 – December 2025
Flikt Technology Web Solution Remote

- **Engineered** scalable backend services for a Learning Management System (LMS) using **Node.js, Express.js, and MongoDB**, implementing course management and user roles that improved system efficiency by **40%**.
- **Optimized** database queries and RESTful APIs, reducing average response times by **30%** and significantly enhancing platform scalability.
- **Minimized** background job latency and refined error-handling workflows for LMS operations, improving production reliability by **30%** and reducing failed transactions.

PROJECTS

TRIPZO (In Progress) | ***React, Node.js, Express.js, MongoDB, Gemini AI***

- Developing a travel-based web platform inspired by modern ride-sharing and booking systems, enabling users to explore destinations, plan trips, and interact with AI-powered assistance
- Integrated an **AI chatbot using Google Gemini API** to provide intelligent travel suggestions, itinerary guidance, and real-time user support.
- Building a scalable backend using **Node.js, Express.js, and MongoDB** with secure API handling and optimized database queries for efficient data retrieval.
- Designing a responsive user interface with **React.js** to deliver a smooth and interactive user experience.

INSIDERJob | ***React, Node.js, Express.js, MongoDB, REST API, JWT, Sentry*** [**LINK**]

- Innovated a full-stack job portal platform using **React.js**, **Node.js**, and **MongoDB**, enabling job posting, application tracking, and employer–candidate workflows.
- Operated **JWT-based authentication**, role-based access control, and RESTful APIs, while integrating **Sentry** for real-time error monitoring, reducing production errors by **40%** and improving system reliability.
